

Digital Marketing for Entrepreneurs — Exam Cheat Sheet

Reichman University · Course 2451-EN · Lecturer Ofir Richman. Built from the 6 marked past papers + the 2026B structure doc.

2026 FORMAT: 25 multiple-choice questions × 5 pts = 100 pts. **NO open-ended question.** Know every acronym; expect (1) define-a-term, (2) advantages/characteristics of a model, (3) match-a-scenario-to-a-concept.

MUST-KNOW ACRONYMS & METRICS

CTR	Click-Through Rate — the metric for a sponsored social campaign's performance.
CPA	Cost Per Action — pay only on conversion; ⇒ high price/unit + high conversion rate.
CPC / CPL	Cost Per Click / Cost Per Lead — pay per click / per lead captured.
CPM	Cost Per Mille (1,000 impressions) — pay for exposure; dominates audio ads.
DAU / MAU	Daily/Monthly Active Users. DAU÷MAU = retention / stickiness.
OMTM	One Metric That Matters.
CLTV	Customer Lifetime Value — segment to prioritise high-value customers.
UGC	User-Generated Content (created by users; e.g. a TikTok clip). = earned, not owned.
GDN	Google Display Network — reaches audiences not active on social ; gives publishers revenue certainty .
ROI / CAC	Return on Investment / Customer Acquisition Cost.
Bounce rate	% who leave after one page — high (~75%) = poor-quality traffic.

CORE MODELS & FRAMEWORKS

4P's → 4C's	Product→Consumer, Price→Cost (value-based pricing) , Place→Convenience, Promotion→Communication .
POEM	Paid · Owned · Earned Media. Owned=your site/app/blog; Earned=UGC, WOM, shares; Paid=ads/GDN, Taboola/Outbrain.
Rayport — 4 spheres	Public · Social · Tribal · Psychological. Crucial element = customer-centricity.
STEPPS (Berger)	Social currency · Triggers · Emotion · Public · Practical value · Stories. Social Currency =makes sharer look like an expert/insider.
Growth Hacking	Goal = rapid, sustainable & scalable growth / optimise CAC. Tactic e.g. referral rewards.
High Value Features	Maps features/benefits/value → customer needs & wants. (Value↔Want vs Value↔Need is disputed — see conflicts.)
Content vs Penetrated mkt	Penetrated market (existing customers) ⇒ best tool = newsletter / email .
Channel vs Platform	Channel distributes owned content (Netflix); Platform lets users co-create (YouTube).
Linear vs Non-linear	Linear=scheduled, real-time broadcast set by publisher. Non-linear=on-demand, personalised.

MOST-REPEATED QUESTIONS (memorise)

Linear viewing (5 papers)	Watching at the original broadcast time set by the publisher .
4P→4C shift (4)	Price → customer value-based pricing ; Promotion → communication.
Growth-hacking goal (4)	Rapid, sustainable & scalable growth (early-stage: optimise CAC).
'Visits up but failed' (4)	Answer = high Bounce Rate (~75%) ; if options are opt-out/time-on-site/CTR ⇒ 'None is correct.'
Attachment vs Loyalty (4)	Attachment= emotional (displays logo). Loyalty= stays despite discounts .
Analyse sponsored campaign (3)	CTR .
Content in penetrated mkt (3)	Newsletter mailing .
Damian Ryan 'level playing field' (3)	Small firms reach their audience far cheaper than before.
Smith & Wintrob (3)	Folklore stories = created, driven & spread by consumers ; storytelling = authentic, resonant.
Cross-platform strategy (3)	Same message adapted across platforms ⇒ boosts visibility & engagement.
Voice search impact (3)	Create content shaped as answers to questions .
Rayport spheres (3)	Public · Social · Tribal · Psychological.
GDN publisher incentive (3)	Higher certainty of ad revenue .

HIGH-YIELD ONE-LINERS

Survivorship bias=only studying subjects that passed a selection ⇒ skewed inference. **Conversion definition & KPIs** flow from campaign strategy/goals. **Referral traffic**=arrivals via links in posts/stories. **Pioneer Effect**=high Big-Data + high Traditional analytics. **Native advertising**=in-feed ads, content recommendations (Taboola/Outbrain), advertiser-initiated content. **Owned media**=app, official blog; **UGC is NOT owned**. **Email marketing is NOT paid media**. **In-feed ads are NOT content marketing**. **Gary Vaynerchuk**=Engagement-Led Marketing (not everything is measurable). **Google's social failures**=weak brand story. **Digital audio ads**=content-adjusted, cheap, CPM-based; listeners multitask ⇒ spend/time gap. **Digital Natives** (Ryan)=see tech as seamless part of daily life. **Uberflip Consideration phase** ⇒ remarketing-based paid media. **Ebrahim (2020)**=trust shapes consumer perceptions ⇒ brand equity & loyalty.

ANSWER CONFLICTS — pick the safer option

Rayport spheres	Public/Social/Tribal/Psychological (2 papers). 'Professional/Family...' on 1 paper = likely error.
GDN incentive	Revenue certainty (2 papers) beats 'adaptation to user interests' (1).
Bonchek challenge	Lack of data availability (2) beats 'difficulty adapting to tech' (1).
High Value Features	Value↔Want (P5) vs Value↔Need (P6) — split; check the slide .

Past-exam answers may not match this year's updated slides — verify anything that looks off. Full per-question explanations are in the 'Past Exam Notes' folder.
